ABOUT US

BCM ESTRUCTURAS GROUP

Mexican company specialized in structural design, manufacturing and fabrication, supply, and installation of all types of steel structures, with a particular focus on the industrial and commercial sectors at any scale.

We emerged with the vision of combining over 20 years of experience from steel specialists to offer top-quality products that meet the most demanding market standards. In this way, we guarantee innovative and reliable solutions for every project.

VISION

To become a leading steel structures company in the manufacturing and fabrication of steel buildings and components, both nationally and internationally, focusing on resource optimization while maintaining a strong commitment to social responsibility and sustainability.

MISSION

To offer products and services of the highest quality, meeting the most rigorous standards to ensure safety and trust in the construction industry.

PROFILE

We are a company specialized in the design, manufacturing, fabrication, analysis, and development of structural steel solutions for the construction and industrial sectors. We apply cutting-edge methodologies to guarantee quality and efficiency. We supply our products nationally and internationally, and provide installation services exclusively in the metropolitan areas of Monterrey and Saltillo.

SERVICES

SERVICES

- Structural **design**, calculation, analysis, as well as **manufacturing and fabrication** of steel structures and joists for:
Industrial Warehouses / Storage Buildings / Shopping Plazas / Mezzanines / Warehouses / Buildings / Modular Structures (Pre-engineered)
- Structural analysis, design, calculation, and modeling using **BIM** methodology with specialized software such as Autodesk **Revit Structure**.
- Modeling, design, and detailing of high-precision steel structures using Autodesk **Advance Steel**.
- Adaptation, modification, and **reinforcement** of existing **steel structures**.
- Comprehensive supply and installation of **roofing and wall systems**, including: KR-18 standing seam systems, corrugated metal panels, translucent panels, and TPO roofing membranes.
- Installation and assembly of steel structures. **Installation services** are exclusively available in the metropolitan areas of **Monterrey and Saltillo**.
- **FOB Supply (Free On Board)**: Direct pickup at our manufacturing plant.
- **Delivered Supply**: Logistics and transportation services throughout Mexico.
- **U.S. Exports**: Comprehensive **transportation** logistics and **customs clearance** through the Laredo, Texas Port of Entry, with nationwide delivery across the United States.

SERVICES

CONSULTING SERVICES

We also offer structural inspection and diagnostic services, specialized evaluation of metal sheeting, and quality supervision focused on warranty certification.

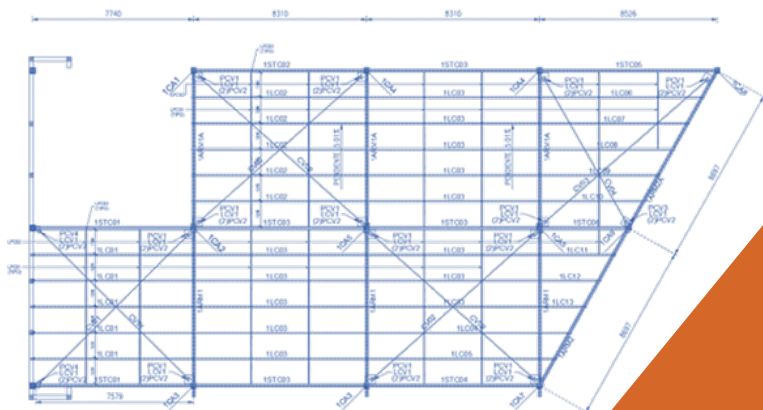

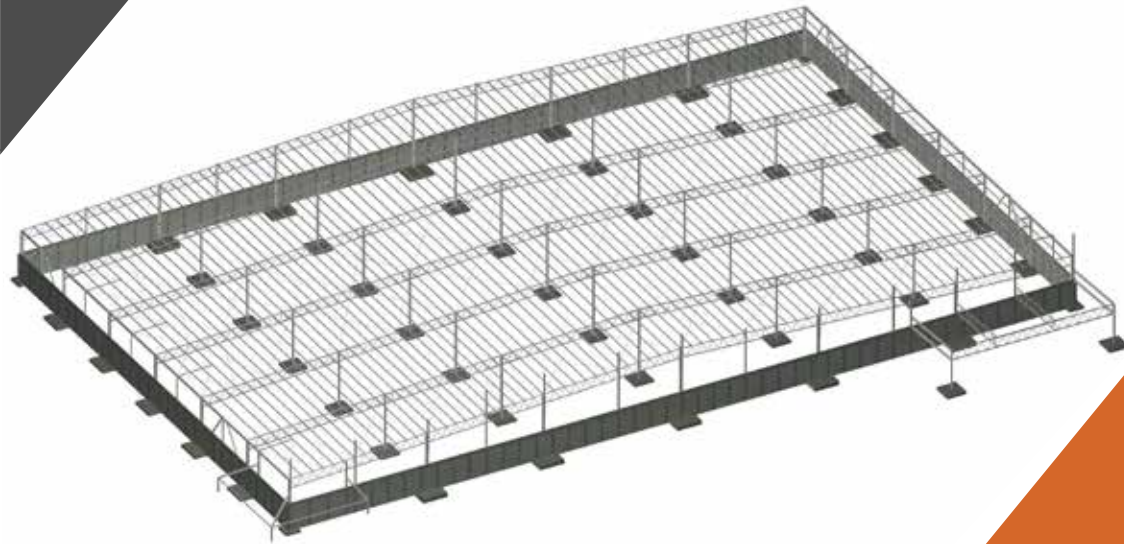

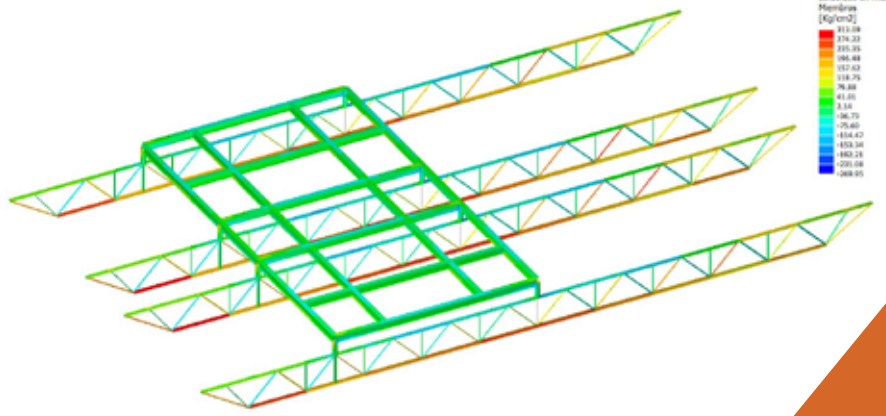

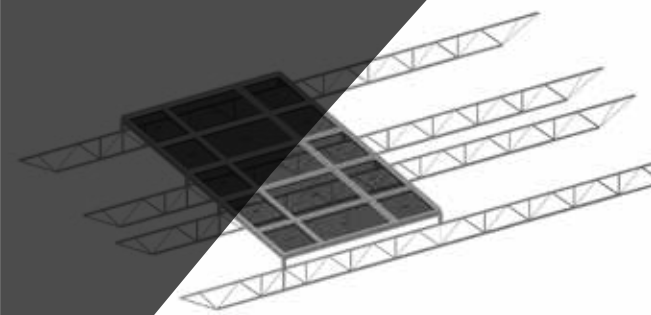

STAFF

Our team provides comprehensive and customized solutions, backed by highly skilled professionals committed to quality and innovation.

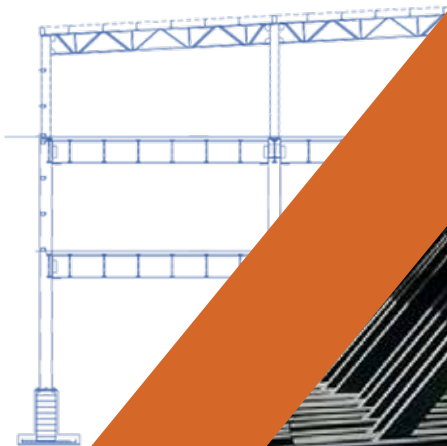

EXPERIENCE

With over 20 years of experience in the construction of industrial and commercial buildings, we specialize in structural design, engineering analysis, manufacturing and fabrication, supply, and installation of steel structures. Our successfully completed projects back the company's extensive experience and solid reputation.
